SECCIÓN 1 - PLAN DE INVESTIGACIÓN/SECTION 1 - RESEARCH PLAN

PLAN DE INVESTIGACIÓN / RESEARCH PLAN
TÍTULO DE LA TESIS DOCTORAL / THESIS TITLE
Measuring the Efficacy of Competition Policy

DESCRIPCIÓN DE LA METODOLOGÍA A UTILIZAR / DESCRIPTION OF RESEARCH METHODOLOGY
The impact of focus shift in competition policy in the US in 2010s to several non-price effects, particularly to innovation, will be empirically analyzed. The data will consist of M&A data from SDC Platinum and public patent data from USPTO. Using several machine learning techniques and sentiment analysis, the impact on innovation metrics of patents, like originality, innovative intensity, quality, etc. will be analyzed to enhance the understanding of effect of this shift of focus of competition policy on innovation profile of merged entities.
DESCRIPCIÓN DE LOS OBJETIVOS A ALCANZAR / DESCRIPTION OF DESIRED GOALS
The research outcome would bridge the gap between the shift in focus of competition policy to non-price effects and to broader competitive effects, and its practical implications for big technological firms. This would also help to understand the strategic intent of mergers and acquisitions happening in “Big Tech” world.
MEDIOS MATERIALES / MATERIAL RESOURCES
The main work tool is my personal computer to retrieve and analyze public patent data, and university access to main M&A database SDC Platinum.
PLANIFICACIÓN TEMPORAL / PLANNING SCHEDULE
The first year is dedicated mostly to polishing my master thesis to publish it in an academic journal alongside working in the second chapter of my thesis. I will present the second chapter in an internal workshop in November, 2024.
FECHA PREVISTA PARA LA FINALIZACIÓN DE LA TESIS / ESTIMATED DATE OF THESIS COMPLETION
Given the current circumstances, the expected time of completion is the academic year 2026/2027.
